**RUN BY: ARYA EDUCATION SOCIETY (Regd.)**

## Academic session: 2026-27

### “Curriculum”

The vital element of curricular and co-curricular activities is focused on child centred education. In child centred curriculum the child occupies a pivotal position. Our goals and objectives are to provide the most effective education which include content to be taught and learnt, pedagogical practices and assessment, teaching-learning materials, school and classroom practices, learning environment and culture of the institution, and more.

#### Kindergarten

We aim at developing the total personality of the child emphasizing the child's needs, and making them creative, self-reliant and responsible persons.

Kindergarten is a first step of your child to formal education. During this year they learn about letters and sounds and they improve their vocabulary. They will take their first steps toward reading, grow their vocabulary, and learn to write the alphabet letters.

Your child will learn more about math, science, time, shapes, and more. They learn important social skills as well as how to function in a school environment.
